Notes:

Effective 0001 hrs on December 20, 1999, fishing vessels issued a Federal moratorium permit for the black sea bass fishery may no longer land black sea bass for the remainder of the Quarter 4 period.

If negative late entries are present on this report, they are the result of corrections to the database.

Landings in this report include black sea bass landings from the week ending October 2, 1999, therefore, some landings may be from the Quota III quota period. These landings will be separated into their respective quota periods at a later date at which time the landings data for each quota period will be adjusted accordingly.

For the week ending **25-DEC-99**, 212 dealers held a federal black sea bass permit. Of those 212 dealers, 138 (65%) have submitted a weekly quota report for the current reporting week. Because Massachusetts dealers submit weekly quota reports directly to the state, they were not included in these calculations.

These data are the best available to NMFS when this report was compiled. Data are supplied to NMFS by dealers and/or state agencies and may be preliminary. Data supplied by the State of Massachusetts are as of December 4, 1999.

The following summary is updated as information is received, and may not reflect recent state actions. Readers are urged to contact the appropriate state agency for further information.
